Simply try reinstalling the newest version of the program that..Q: Perl DBI: How do I remove records with a specific date? I'm using DBI to connect to a sqlite3 database, and I need to remove all records that have a specific date, for instance, the day after tomorrow. How can I write a SQL query for this? A: Use the AT TIME '' clause for your query. A: The way to do this with pure SQL is to use a subquery: DELETE FROM `Table` WHERE `MyDateColumn` connect('DBI:SQLite:dbname=:memory:', 'user', 'password', { RaiseError => 1, OnReadOnly => 1,
