- Design, Graphics, Sound, Ellyasha "The fascinating aspect of Tarnished for me is that it feels like a new take on role playing games. The world around you and the visual design and the general presentation makes it feel like an RPG. Yet the gameplay style, the complexity and the difficulty level are reminiscent of the games that I played years ago. It's a nice blend of today's RPG and the older format combined with the fantastic presentation of today. The story and the characters are also very good. It's an epic theme, a mythological one, which presents the player with many new difficulties in play. It's truly a good game all in all. The main thing I'd like to see in a next installment is a little bit more diversity in the online play. As it is now, I found it to be clunky. The system is very similar to the one used in War Dragon Online and I had a lot of trouble with it to be quite honest. I will look into what is going on to see if I can find out anything about it. But I can't comment on this as in fact I didn't play this game directly. I'm sure this game will find its place in the market, but it's currently suffering from a lack of exposure. I'm sure that if an adequate marketing effort would have been put into it by its developer, it would have done much better. The developers need to develop more of an online campaign that could let players try this game without being limited to one single account. A little bit more consistency in the gameplay would be appreciated too." - Design, Graphics, Sound, Driftmine "Tarnished has the medieval feel that I like to see in RPGs with a heavy emphasis on battle. The story is good and the characters are interesting as well. The online game is also well done, allowing players to spend their own time and money to play with other players as well. The maps are large and the game is very easy to get into." - Design, Graphics, Sound, Poultice_Of_Light "Tarnished, set in a vast, gritty world inspired by a blend of Dark Ages mythos and Tolkienesque fantasy, captures the feeling of classic role playing games. In Tarnished, you don't fret about whether you'll get a certain piece of equipment, for example, since many items can be bought/crafted from scratch bff6bb2d33

 DYNAMIC REAL-TIME BATTLE OF FIGHTS FROM A PIXEL VIEW The battle system used for the game is based on a pixel-based real-time action battle. The display of the battle, including the state of the characters and items, is displayed in a pixel view, and the critical situation in the battle can be tactically resolved. 3-D BATTLE LINES TO THE PIT OF MANY UNKNOWNS Based on a real-time action battle, the battle system is free from artificial barriers, and in contrast to a real-time strategy game, it features fast battles between a variety of characters. CLASS PROPERTIES AND CUSTOMIZATION Although it was originally created as a fantasy action RPG, the game emphasizes class elements that allow unique combinations. In addition to the social skill of class, guild level, etc., we also focus on the class property of gear that creates a clear differentiation. MUSIC AND VISUALS WHICH COULD WAKE THE LORD OF THE RINGS Elves, fairies, and merlings are the only mythical creatures that do not live in the World of the Diary. Instead, we have created music and visuals that can wake the lord of the rings. www.game.elden-ring.com ►: ►: ►: ►: ►: December 7, 2017 THE NEW FANTASY ACTION RPG. In order to collect the names that friends/players' characters create, you can use GUIDs. 1. Follow the directions for naming your character, and enter your title. 2. Type in the GUID that you have obtained from the previous section. 3. Enter the name into the field labeled "Character Name". 4.
