
Asura's Wrath Pc Download !!TOP!! Link

You are a young man who moves into your aunt's house to help her raise her orphaned granddaughter. However, upon moving in, you realize she didn't tell you the house has a ghost that roams the house. The ghost is apparently evil and one of the Seven Deities of Gaia, a goddess that punishes fallen human beings with 7 days of agony called One Punishment. Also known as Asura's Wrath, it's up to you to protect the now-orphaned girl and defeat the evil ghosts. Asura's Wrath is a third person action game that takes place in a living world where ghosts have been released from their spirits. You control a young man who is a resident of the house that his aunt just died. The game contains a story mode that follows your character as they fight off the ghosts. The game also features two alternative difficulty modes that can be unlocked by successfully completing the main story mode with certain numbers of stages. The arcade mode features a number of different stages that are played against computer opponents. The hardcore mode challenges you to finish the stages in a shorter amount of time while limiting the use of new power-ups. Capcom's Asura's Wrath is a third-person action game where you play as a young man who is the caretaker of a haunted house. Once your aunt dies, you are contacted by a new (apathetic) employee who promises to take care of you and your young nephew. However, you soon learn that your aunt was the one who took care of her niece, before she died. You must protect her or at least find out the reason for her death and stop the spirits haunting her and the house.
