## Ticket To Ride - Europe Activation Code

the thing i think everyone should have in their game collection is a game that is fun to play with family and friends. ticket to ride is one of those games. if you play it with friends and family, there is never a dull moment, and you always have a good time. it is also extremely easy to teach to someone who has never played, and people dont really care that you dont really understand the rules right away. once you play a few games, you start to learn the basic principles, and youll be playing in no time. what i like most about this game is that you play a train, but you can still customize it to your heart's content. you can have as few or as many trains as you want. some people like having trains that are really long, while other people like a train with two or three stops. you also cant wait to start taking cards. if youre not careful, youll end up filling up your train with unnecessary cards. then, when youre trying to get a card into your next station, it will try to go in the wrong direction, and youll end up having to make the reverse of the journey. if you dont do this, youll find yourself with a train full of cards, and no place to put them. this is where youre forced to make a decision. are you going to keep the cards for later, or are you going to give them to a friend or someone who really needs the cards to finish their train? i like to ask my friends and family which cards they really need, and then i give them to them. this way, theyre not sitting around with a pile of cards, and they can actually finish their train. i feel that this is another reason why ticket to ride is so awesome. you always get some cards for yourself, even if you dont finish your train. youre always rewarded for playing the game, and you can customize your game to your heart's content.
